Essex "SureFoot" runflat tires....

25" & 27SFYH-B [Black Steel] or A [Aluminum] : For best off-road performance in mud, snow and rock choose the 27" SUREFOOT Kit. This custom built tire has been designed and tested for run-flat performance on 4x4 vehicles like the Rhino. It features a KEVLAR belt for puncture protection, 1150 lb load rating with heavy sidewalls for safe traversing and 1 1/8" lugs that eat up harsh terrain... yet run smoothly on hard surface. 25" and 27x9 front and 27x11 tires on 12" rims. Steel & Aluminum ITP wheels and Lug

bolt kits available. Made of Tough "Stubble guard" compound for longer tread life and puncture resistance. NEW: 25-8-12 and 25-10-12 sizes are now available; Fits on OEM wheels.

26SFYH-B [Black Steel] or A [Aluminum] : Smooth running All-Purpose Tire for On & Off-road travel, choose 26" SUREFOOT Tires. This 6 ply 26-10-12 tire on all four wheels is patterned after the top rated Titan 489XT tread style with it's medium sized 5/8" lugs that Offer top traction, scour mud, run smoothly and provide run-flat performance. Like the 27" it features a Kevlar belt, 1150 lb load rating and reinforced sidewalls to provide dependable ride and medium traction performance. Not an extreme tire but a run-flat tire that works well for customers that want "round-trips" on their UTV's. Superior in Load, Stability and Run-Flat performance. Steel & Cast Aluminum wheels and lug bolt kits available.

STEEL HARDTOP & VISOR: 3000/4000HT & 3000/4000HTRANS

- The Essex Steel Hardtop and Visor are part of a modular enclosure for the Mule
- The top is attractive, sturdy, safe to trailer and supports a variety of additional powered accessories such as lights, a windshield wiper, & a CD Stereo radio and Halogen Lightbar
- The 16 gauge steel hardtop is made from galvanized metal and finished with a tough powdercoat color matched to the Mule or in Textured Black.
- Inside the top, a domelight is the sound deadening headliner that conceals a harness with connections for other accessories.

The rear section of Essex Trans tops is adjustable. It slides into long or short positions to allow full use of the dump bed in extended mode. The tops are available for single seat or Trans models and are part of Essex modular cab enclosure if you should wish to upgrade in the future.

ADD OUR CD RADIO, LIGHT BAR & BEDLIGHTS

- LBVisor: Choose the visor lightbar with Spotlight and two trapezoid pattern halogens. Includes switch panel that also operates the optional Bedlights.
- URMCDRadio. The 120W AMFM CD Radio fits in the roof and features
 - Wireless remote controller;
 - Amplified antenna for improved reception;
 - MP3 port & IPOD Cable
 - High fidelity speakers
 - Easy to install with connectors prewired.
- Electric wiper & washer kits are available for the unique Lift-Glass Windshield
